Word of mouth now comes through the form of reviews, and if you don't have a way to quickly get the most reviews on sites like Google, then you will fall behind the competition.

ReviewBuzz simplifies sales growth by providing a centralized location where you can collect all your online reviews, even as you gather new ones. The software plugs in your employees to the review process, rewarding them for great service and encouraging them to compete for recognition as the best on the team.

Raising your company's profile and image gets more people talking, keeps you relevant, and raises Google rankings for every product and service you offer.

The ReviewBuzz system creates a company culture of service excellence, helps your SEO, raises your Google rankings, drives sales, customer service, loyalty, and employee retention while providing a high-speed early warning system for problems that need your attention.

And best of all, with the ReviewBuzz Mobile App, ANYONE with a smartphone can earn and manage reviews from the palm of their hand.
